

Changing the Topic you are in.

 In most cases the Topic will be preset by the Facilitator, meaning you will go straight into the current "Active" Topic.

This tells you which Topic you are currently in.

 Click/tap on the Topic name and there's a list of any other Topics that are "Open" for you to enter and take part in the activity.

 If a Topic is "Closed" it won't appear on the list, until the Facilitator Opens it.
